

บริษัท วงศ์บัณฑิต จำกัด

VON BUNDIT CO., LTD.

Vision , Mission and ISO/IEC 17025 Quality Policy

Vision

We will be the most accurate, precise, and reliable laboratory in the rubber industry.

Mission

Enhance the knowledge of Lab staff proficiency to be equivalent to other laboratory by supervising, controlling, calibrating and using the appropriate testing tools which is reliable and accurate or meeting customer specification.

Quality policy

Von Bundit Co., Ltd. Is the manufacturer of STR has committed to testing STR, committed to be accurate, precise, and reliable at the international level by using the standard laboratories of quality system ISO/IEC 17025 to apply for guidelines and operate under the quality management system. The management has established the following testing laboratory quality policy.

1. Personnel involved in professional work should possess academic ability and expertise
2. Both the personnel and activities of the laboratory must remain neutral
3. The standard of testing is accurate, precise, reliable and consistent
4. The laboratory must maintain the confidentiality of data generated from its activities. It must not disclose the source of customer information, except when required by law.
5. Personnel should understand and be familiar with the quality documentation and operation in order to be prepared to continuously improve quality.
6. There should be a commitment to comply with ISO/IEC 17025 standards, and management reviews should aim to improve the efficiency of the laboratory.

(Mr. Bundit Kerdvongbundit)

Chief Executive Officer
